## ABOUT US

Enertech Qatar is the Middle East's largest Health, Safety, and Environmental (HSE) Training Provider. It was established in March 2004 to meet the growing demand for high-quality and standardized Health and Safety training. Enertech Qatar delivers flexible safety training solutions that equip your workforce to deal with real-life risks and circumstances in all related fields.

Enertech Qatar aims to help protect people who are the most valuable asset of any organization, increase business profitability and mitigate risk through investment in training of employees, workers, and even private individuals. Our expert trainers strive to understand the demanding and challenging working environments of Qatar and beyond. Our wide range of courses are designed to aid your business to become fully compliant with health and safety requirements.
